REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Greenwood:—

I herewith submit my second annual report of the financial condition and progress of the schools of Greenwood for the municipal year ending January 31, 1920. We have found it necessary to overdraw one account, the Repairs and Supplies account, the chief reason being the increased cost of supplies and material as well as labor. It is always hard to know the exact amount of money needed for this account, especially under the changing conditions of today. I am recommending that the town raise two separate accounts this year, one for Repairs and one for Supplies. There is no reason why these accounts should be together. The Supplies account can take care of all incidental expenses, including the cost of maintaining the Superintendent's office, for postage, etc., and the committee can know the exact amount that can be used for repairs.

The Tubbs schoolhouse was shingled this year and a new floor was laid in the hall at the Locke Mills schoolhouse. Several other smaller jobs were completed. It will be necessary to build a shed at the Irish schoolhouse for wood and closets. This ought to be annexed to the schoolhouse so that the teachers and children will not have to go out of doors for wood or to the closets.

Steps should be taken as soon as possible to install ventilating systems in all the schoolhouses. This has been started with the aid from the State but last year we had to use all the State money toward the cost of running the schools.

You will notice in the statistics that the schools have had from thirty-four to thirty-eight weeks but this is only true for the town year, not the school year, which runs from July first to June thirtieth. The length of the school year ending last June was thirty-four weeks and this year will be either thirty-two or thirty-three weeks.

The teacher situation for another fall looks to be very bad for towns like Greenwood, since we are not able to pay enough to get the good teachers. We may be fortunate enough to get some good teachers near home for less money, however.

The people living some distance from a good school do not like to have their children conveyed to that school but prefer to have them go to school near their homes, so it is hard to recommend closing small schools and conveying to larger ones. However, I believe it will be necessary to do this before long because of the teacher shortage.

The State has supplied the schools with a new course of study and I have given each teacher an outline course so that the pupils in the different schools can be nearer together than they have ever been in their work. This has made it necessary to buy new text-books and a larger appropriation for text-books is asked for this year. It is necessary that we have the whole amount recommended.

I do not see how it will be possible to get along with anything less than the amounts recommended by your committee.

Respectfully submitted,

CHARLES E. LORD,

Superintendent of Schools.
